

**What was the reason you to become a member of AOSpine and why would you recommend others to become an AOSpine member?**

AOSpine has gained recognition as one of the world's premier spine societies. As one of the earliest AOSpine fellow in 1995 I had been very involved with AOSpine all my academic life.

At present, the educational program is being developed globally for particular audiences dependent on personal level of skill and need such as GSC, Davos Courses etc. To become an AOSpine member you can have educational, research, and networking opportunities to enrich the knowledge and enhance the career of any spine surgeon—no matter whether an experienced master or fresh out of residency.

**What does being a member of AOSpine mean to you and how has AOSpine influenced your career?**

As a member of AOSpine means I have privilege to access to the largest spine community in the world.

As one of the earliest AOSpine fellowship from Mainland China, I had a great opportunity to take AOSpine Fellowship in Las Vegas over 23 years ago. Though the global exchange of knowledge at local, regional and international level provided by AOSpine I can improve the outcome of spine surgery during my further professional career.

**What was the reason you applied for the Member Representative Position?**

As the president of CAOS (Chinese Association of Orthopedic Surgeons), Past President of COA (Chinese Orthopedic Association) and Chairman of Chinese Spine Society what I endeavor to is to build up a bridge between AOSpine and Chinese Spine Surgeons and promote China to blend in global spine community.

**Why should the AOSpine Voting members vote for you?**

1. As the one of the pioneers of Chinese Modern Spine Surgery I make contribution to Chinese Spine career
2. With the influence of spine committee, I was elected the Deputy-editor of SPINE journal in 2008 thus I really appreciate that my work is recognized by world spine committee.
